

Digital Installation Schedule of Rates

Installation of image 10m2 or greater on Digimura	£25.00 per/m2
Installation of image 10m2 or greater on Strataflex or Window Film	£37.50 per/m2
Installation of image smaller than 10m2 (including adhesive)	£250.00 per/visit
Installation of image 10m2 or greater on Strataflex or Window Film	£375.00 per/visit

These prices include basic surface preparation, priming and installation of the image.

Additional preparation, i.e. excessive making good will be charged per visit	£250.00 per/day
Images larger than 2.8 metres in height; Images applied to higher than 2.8 metres from ground level; Or images applied to ceilings will be charged for an additional operative.	£250.00 per/day
Out of hours working : Evenings (after 6pm)	£375.00
Out of hours working : Saturday	£375.00 per/man
Out of hours working : Sunday	£500.00 per/man
Site Survey	£125.00 per/site

A Site Survey is integral to achieving a successful installation. It will enable us to print your image to the appropriate size for the area in question, identify any substrate issues, access equipment that will be required and to carry out a risk assessment.

Additional expenses, i.e. equipment hire, travel, parking and accommodation, will be charged where applicable.

**Prices may vary subject to site survey.
All prices subject to VAT.**

Please be aware our lead times are usually within 20 working days from completion of the site survey and receipt of a purchase order.

Digital Installation Terms and Conditions

Provisional:

Any waiting time that is incurred due to circumstances beyond our control, will be charged at an hourly rate for each operative of £35.00 per hour, or at an out of hours / weekend rate of £53.00 per hour (if applicable). It is the Main Contractor/Clients responsibility to ensure protection and care of the Digital Image once installation is complete.

Minimum Rate:

The minimum rate of £250 per operative will apply:

- If the image is less than 10m².
- If excessive making good is required, preventing the installation of the image.
- If we are unable to complete the installation, due to circumstances beyond our control, resulting in a return visit.
- If the installation is aborted due to circumstances beyond our control.

Working At Height:

When installing images higher than or from a height of 2.8m or higher, a mobile access tower will be used and charged accordingly. If there is a requirement for this equipment to be held on site prior to or subsequent to the installation, the customer will be responsible for its insurance and safe keeping in our absence.

The Work Area:

Muraspec operatives must be given unrestricted and exclusive access to the work area. This area should be clean and free from dust and debris for the duration of the works and lit in a manner suitable for hanging wallcoverings. Wherever possible, we would appreciate an area in which to layout out the print as this will help us in setting out and checking the image prior to installation. We will also require easy access to clean water. It is our recommendation that the Installation of your Digital Image is programmed as the last works to take place.

We will not undertake any of the following:

- Any wall preparation or making good (with the exception of Murabond Priming) without prior agreement.
- Removal or moving of furniture or equipment.
- The removal of fixtures or fittings.
- Loosen or the removal of any power points, light switches, Data Points, telephone sockets or plumbing fitting such as radiators etc.

Health & Safety:

It will be the Main Contractor/Clients responsibility to ensure the site is free from hazards and that it is safe for our operatives to carry out the installation. The installation will not be carried out unless it is deemed safe to do so and any relevant "permits to work" have been provided.

Aborted Visits:

If we attend site but are unable to carry out an installation due to circumstances beyond our control, the visit will be aborted and charged accordingly along with any additional costs.

Vehicle Access and Parking

Vehicle access must be permitted for the transfer of materials and tools where it is reasonable to do so. Failure to permit such access may result in an aborted visit where our minimum charge will apply. The Main Contractor/Clients will be required to provide parking for our vehicles on site. If parking is not available, any costs incurred will be passed on to the customer.

Please note: The Muraspec Standard and Digital Print Terms and Conditions also apply and are available on request.
