

Linens is a beautiful and classic fabric 'look', which would complement any interior with a hint of sleek style. Our contemporary Jacana wallcovering is light and fresh with striations and tonal colour variations on the 'yarns' to emulate the appearance of natural fibres. The design is popular and very complimentary: charming and refined with a subtle all-over texture in true faith to the natural linen slubs. Available as a Type I non-woven design in 14 highly useable colourways it includes our new Biomaster application which guarantees fast, effective antimicrobial protection for the lifetime of the wallcovering.
